Profile

Passionate and detail-oriented front end developer with a systematic approach to problem-solving and the ability to work effectively in a team environment. I am seeking to advance my career as a front end developer where I can contribute my experience, education, and leadership.

Employment History

Software Developer, Van Doren Sales

Jan 2019 — Present  Yakima

- Cut monthly cloud compute spending in half by converting traditional applications to serverless
- Developed the front and back end of customer facing applications
- Created proof of concepts on the Amazon Web Services platform
- Integrated with existing RESTful apis
- Took ownership of both new and existing code bases
- Moved on premise workloads to Amazon Web Services

Web Development Instructor, Nucamp

Dec 2019 — Feb 2020  Remote

- Mentored students in ES6, React, and Redux
- Explained advanced topics in a way that was easy to understand for new developers
- Led 4 hour workshops every Saturday covering topics learned the prior week
- Provided my students with additional learning resources that had helped me. Such as books, blogs, tutorials, and online courses

Education

Woz U, Full Stack Software Development

Jan 2018 — Sep 2018

Community

- Community member and speaker at Cultivate Yakima
- Contributor to the AWS Amplify community
